KITCHEN RENOVATIONS

# A kitchen that works for you

More room to cook, clever storage or a layout that brings everyone together. We coordinate the building work, fitting and finishing around how you use your kitchen.

## Make better use of the space

From a new fitted kitchen to an open-plan layout, we plan the work around your home and daily routine.

## Bring the details together

Cabinetry, worktops, lighting and flooring all shape how the finished room looks and feels.

BATHROOM RENOVATIONS

# Make more of your bathroom

From a full refurbishment to a shower upgrade, we can bring the plumbing, tiling and finishing together in one agreed scope of work.

## Improve the layout

Make better use of the room with a walk-in shower, a different layout or better storage.

## Choose finishes that suit you

We can help you plan fixtures, tiling and practical details, right through to the final finish.

HOME IMPROVEMENTS

# Make room for more

From a rear extension or garage conversion to a whole-home refurbishment, our team can coordinate the building work and interior finishes through to handover.

### Extensions & conversions

Create space for a bigger kitchen, an extra room or a better connection to the garden.

### Refurbishments & finishing

Bring layout changes, carpentry, flooring and decoration into one coordinated project.

## Interest-free payment plans

Ask if an interest-free payment plan is available for your kitchen, bathroom or home improvement when you request a quote.
